

BYRC UPDATE -BUGS

1. Counselors failed to approve applications (Currently only admin can approved the appointment)
2. Booking/Appointment (View summary missing) (Student Portal)
3. Service Type (Update - not working) if a user update the services (Service type its not update still showing the pervious urls)
4. Notification (Mark All Read) not working showing the static response
5. Currently Counselors roles are pre-defined (Client required add more Counselors roles)
6. Frontend (Make Counselors Profile View, Staff Profile View as student profile view)
7. Docx Link Brokage
- 8. 3 User credentials provided (1 Counselor , 1 student, Admin)**
9. Content Verify (All content will be real not demo content)
10. In Home page (Website) check the services section its still static
11. Image are dummy in Counselors, services and other content
